12 Benefits of Using MAP/Excel within Your Organization

TRAINING

- **Training Needs Analysis**…to determine training needs of supervisors and managers, thereby enabling the organization to invest time and money in training programs that have the best return on investment.

- **Team Development**…to identify the collective strengths and weaknesses of groups of managers who function as a team and develop action plans for team improvement.

- **Evaluation of HRD Efforts**…to measure the impact of training and management development by using MAP as a pre- and post-training evaluation to assess individual and group improvement.

- **Targeted Training**…to give trainers a profile of individual strengths and development needs so that courses can be offered on a needs basis with participants attending only those modules necessary.

- **Management Education**…to equip managers with an in-depth understanding of the 12 competencies that studies have identified as pivotal to the successful performance of managers in any organization.

- **Partnership**…to strengthen the relationship between MAP participants and their managers as partners in their ongoing growth as they commit to implementing the Individual Development Plan.

ORGANIZATIONAL

- **TQM and Benchmarking**…to upgrade the quality of managerial performance against norms for the organization and the industry group to which it belongs.

- **Organization Development**…to profile managerial performance by department, division, function, or other demographics that enable senior managers to strengthen weaker areas of performance.

- **Succession Planning**…to identify areas of needed managerial development for an individual to successfully move up to the next level in the organization.

- **Personnel Action**…to provide performance data on key competencies that can help managers to make personnel decisions on promotions, transfers, and team assignments.

INDIVIDUAL

- **Personal Growth**…to enable participants to prepare an Individual Development Plan that outlines the competencies selected for improvement, the actions to be taken, and the support requested.

- **Career Development**…to assess the competencies and styles/values of employees so that this data can be used as input to discussions and decisions relating to career path alternatives.
